# Shell Construction

## Shell Construction and Frame

Precision engineering is applied to every Cal Spas hot tub. Each spa is designed with quality and longevity in mind so users can enjoy the highest quality home resort experience.

## The Strongest, Most Durable Spa Shell in the Industry

Our industry-leading manufacturing process vacuum-forms high-quality acrylic sheets before they are reinforced. Each tub then undergoes a curing process before its shell is reinforced with supports and angled irons that are added to for maximize stability.

## Pressure Treated Cabinet Frame

Cal Spas specially-designed cabinet frames are treated to resist rot, corrosion, and invasive pests and insects. Our American-made Pressure Treated Cabinet Frames are constructed using 1-inch galvanized steel fasteners, corner gussets, and vertical angle bracings for added beam support.

# Insulation

## Cal Spas Insulation

Cal Spas engineering team never stops pushing the boundaries of state-of-the-art home resort technology. Our cutting-edge insulation techniques maintain the temperate waters of your tub by keeping the system's temperature protected from outside environmental influence. This means your spa operates at the highest level of efficiency and will always be ready to welcome you at the end of a long day.

### Thermo-Shield™

Cal Spas Thermo-Shield™ utilizes environmentally-friendly technology to keep the soothing heat of your tub's waters locked in at all times. First, a 3" thick insulation material comprised of post-consumer recycled denim is thermally bonded with a 99% pure aluminum reinforced foil sheet creating a radiant heat shield. This technology directs the system's residual heat back into the spa for increased heating efficiency. A dual-walled layer of reflective bubble foil is installed under the spa's floor to reflect ambient heat upward throughout the tub. Lastly, a unique thermoplastic polymer liner locks in heat while keeping external moisture out.

### • Peace & Quiet

Whether you choose to soak in soothing silence or with your own relaxing playlist via one of our available spa speaker systems, you'll do so while your tub churns and heats the waters in whisper-soft silence.

### • Better Freeze Protection

Cal Spas design technology protects the integrity of both tub and operating components in an efficient, environmentally-friendly way.

### • Maintenance and Service

Thermo-Shield™ equipped spas don't just stay warmer, they're also easier to perform maintenance on compared to conventionally insulated spas.

### Thermo-Layer™ Floor Insulation

- Our specially designed, added layer of insulation keeps cold out and retains heat.
- Temperate layers reflect heat back into the spa —not away from it.
- Prevents temperature from cold cement subfloors from reaching the spa waters.

### Thermo-Guard™ Full Foam Insulation (Optional)

- High density Thermo-Guard™ Full Foam Insulation locks all plumbing firmly in place eliminating unwanted noise and vibration.
- Closed cell foam provides additional structural support and helps repel wear and corrosion.
- Space between the frame and the spa body includes additional insulation to add an additional layer of protection.
- Finishes with a 2lb. layer of foam for additional insulation from the bottom to the top of the spa.
- Increases energy efficiency.

# Pure Water Filtration

## Pure Water Filtration

Cal Spas advanced, industry-leading water filtration and cleaning systems keep your tub immaculate.

### Bio-Clean™ Antimicrobial Filter with TeleWeir Gate

Filters are designed to be both easily accessible and to allow for balanced filtration. A special antibacterial agent within the fabric of each Cal Spas filter helps to ward off growth of microbes and bacteria. A TeleWeir Gate prevents debris from re-entering the spa's water system. When you choose a Cal Spas tub, the days of fumbling for awkwardly placed filters and navigating complex chemical balances are over. In fact, managing the waters of your tub is almost as stress-free as easing into it.

## Our PureSilk™ and Twin PureSilk™ Ozone Purifiers Will Keep Your Spa Clean and Fresh!

### PureSilk™ Ozonator

The Eco-friendly PureSilk Ozonator by Cal Spas features exclusive moisture-sensing technology that instantly eliminates bacteria through exposure to Ozone minimizing the use of costly chemicals required by other tub brands.

### Mazzei Venturi Injector

Mazzei injectors are a unique, patented design that maximizes injector efficiency, suction capacity & mixing capabilities. Trouble free, non moving parts design.

### Mazzei Flash Reactor / Mixing Chamber

Designed to Promote Re-direction of Gas Mixture High Mass transfer efficiency with minimal contact time.

# Cal Salt Filtration

## Cal Salt Filtration

Cal Fresh Water Spa Sanitation System produces a pure form of chlorine by electrolysis of salt (NaCl) in order to sanitize your spa water. After the salt is converted to chlorine and the bacteria are killed, the chlorine converts back to salt and this process is ongoing. The salt concentration used is very low (less than that in a human tear).

### Easy to use

- Conveniently located by your Cal Spa Smart Spa Control Center™
- Simply set the desired chlorine level with the touch of a button
- Automatically generates the appropriate amount of sanitizer
- Spend more time enjoying your spa than maintaining it!

### Clean & Natural

- Cal Salt Produces clean, clear, silky-smooth water that's luxuriously soft.
- Cal Salt provides a more natural-feeling water with no itchy, dry skin or eyes
- Cal Salt is a natural sanitization method, in contrast to using harsh chemical chlorine.
- Cal Salt offers a pleasant healthful spa experience eliminating the harsh chemical odor.

# Smart Spa Control Panels

## Hydrotherapy with a Simple Touch

While some tubs come only with an on/off switch, Cal Spas offers a dynamic hydro-therapeutic experience in each design. Our tubs' low-speed settings are ideal for filtration and long, relaxing soaks while our high-speed settings offer comforting, pressurized massage to overworked muscles and joints. Cal Spas hot tubs efficiently increase their luxurious temperatures with state-of-the-art 5.5 kW Titanium heaters that provide years of reliable heating performance.

CAL SPAS OVAL

CAL SPAS TOUCH 1

CAL SPAS TOUCH 2

CAL SPAS TOUCH 3

CAL SPAS TOUCH 4

### Eliminator™ Power Frame Pump

This high-performance pump efficiently circulates and filters your spa's relaxing waters on low speed while delivering unmatched performance and durability on high speed. It's just one of the ways Cal Spas delivers both relaxing comfort and tough love to whatever ails you.

### Quiet Clean™ 100% Filtration System

Available as an optional feature across our entire line of tubs, Quiet Clean™ 100% Filtration System is comprised of a 24-hour circulating pump that constantly and quietly heats the water, so your luxurious home spa is ready to comfort you whenever you need it. The Quiet Clean™ system can help reduce energy costs by minimizing pump operation when your tub isn't being used.

### Whisper Power Unit™

All the terrific features offered by a Cal Spas hot tub are easily managed by large, easy-to-read full color digital control panels that operate everything from pumps, lighting, and heaters — all with the simple touch of a button. Less time fussing with unintuitive controls means more time relaxing in the swirling waters of your home spa.

### WhisperHot™ Titanium Heater

Cal Spas remains committed to innovation, which is why we're so proud to offer our custom-developed WhisperHot™ Titanium Heater across our entire spa line. While the temperate, enveloping waters of your Cal Spas tub are so comfortable they might feel like they're warmed geothermally, titanium is the key to the soothing warmth of Cal Spa waters. Even with today's salt sanitizing systems, there is no other material that improves heater longevity like titanium. Titanium contains no iron and so it never rusts or corrodes.

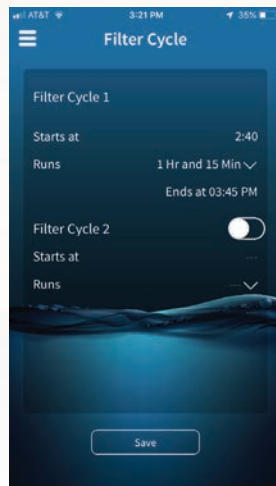

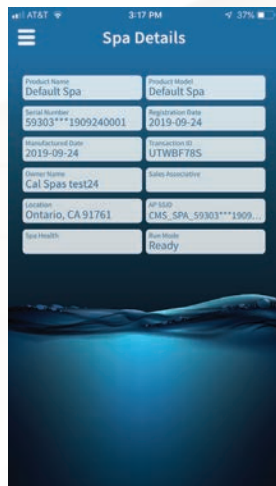

# Cal-Connect

## Cal Connect™

Sit back and have full control of your spa right at your fingertips.

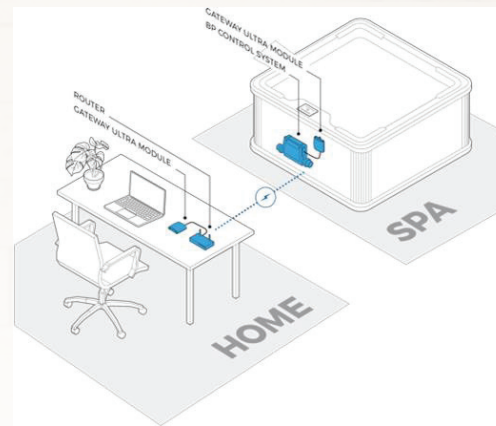

### Full Control, Anywhere You Go

The new Cal Connect Module allows for full control and monitoring of your spa straight from your mobile device. Check the status of your filters, temperature, and lighting whenever convenient. Our new radio frequency development allows for maximum distance while maintaining a reliable connection over traditional Wi-Fi Controllers.

With all of this information available for quick and easy reading, one can monitor all functionalities. Upon service intervals, Cal-Connect will even recommend service dealers in your area to help keep your spa in perfect shape for years to come!

Cal Connect is compatible with both Google Assistant and Amazon Alexa allowing for a truly hands-free, hassle free experience.

### RF vs. WI-FI

Cal Connect uses an RF signal that has a very broad frequency range and goes thru walls, water, and other structural obstacles.

**A WI-FI signal operates on a much narrower frequency that is interfered with by any line of sight barrier and most importantly, water.**

*"Hey Google,  
Turn on my spa"*

works with the  
Google Assistant

*"Alexa, When do I need  
to change my filter?"*

WORKS WITH  
amazon alexa

# Seating

## Seating

Precision sculpting is molded to every Cal Spas hot tub. Each spa is created with quality and longevity to immerse the user in the most comfortable seating position while massaging the tension and stress out of your body.

## Spa Seats

Basking in your Cal Spas hot tub offers you the best spa therapy session you've ever experienced — day in and day out. Our strategically placed jets are located in each tub to specifically soothe away the pain of stiff necks, sore joints, aching shoulders, and tight lower backs.

## Lounge Seat

Sink deep into the bubbly waters of your tub with the Lounge Seat, constructed with specially positioned spa jets that target both the upper and lower body for soothing hydrotherapy sessions.

## Bench Seat

Accommodating your entire party is easy when you select the Cal Spas Bench Seat. Side-by-side seating also for ease of movement while enjoying close proximity to your fellow guests.

## Cool-Off Seat

Want to ward off the chill you might get entering or exiting your spa? You can with Cool Seat, our cleverly designed transition seat that keeps spa users half-immersed for a proper transition from one temperature to another. (Available only on Avalon, Cancun, Kona, Baja, Costa and Hawaiian Spas).

## Seating

When we say every Cal Spas hot tub can offer you years of soothing, comforting relaxation, we mean it. That's because each spa is sculpted to fit the contours of your body perfectly. A properly molded seat will provide a fit that provides comfortable ergonomics while the jets massage and sooth your muscles.

### Ergonomic Lounger Seat

Ergonomic Lounger Seat: For those eager to recline in bubbling spa waters and let the worries of the world fall away, the Ergonomic Lounger Seat provides a subtle yet potent hydrotherapy massage.

### Quad Neck Jets and Multi-Jet Seat

For active athletes, and for professionals who work seated or on their feet all day, Cal Spas designed the Quad Neck Jets and Multi-Jet Seat specifically with massage therapy in mind.

### Soft Tissue Massage Seat

For extremely active individuals in the market for a home spa that offers a full body massage, the Soft Tissue Massage Seat is designed for you. The larger jets in the Soft Tissue Massage Seat are specially-designed to suppress inflammation and accelerate cell recovery for rapid healing.

## Precision Muscle Relief Therapy

At Cal Spas, we understand that many of our customers seek an ultimate hydrotherapy experience for the particular demands of their body. From our innovative contoured seats and strategically positioned jet systems, each of our spas offers a full body hydro-massage simply sitting in different areas of your home spa.

### Adjustable Therapy System Plus™

Looking not just for a splendid soak, but customizable hydrotherapy for your specific pain area? The Cal Spas patented ATS Plus allows spa users to choose from nine distinctive pulsating levels. This system can be programmed to give an enjoyable massage at your desired level of comfort. A simple control panel allows users to quickly change ATS Plus settings.

### Footwell with Tornado Jet

Cal Spas understands that the feet are the foundation upon which the body stands. That's why the Footwell features powerful dome jets to target the sorest part of the feet and massage away aching pain.

### Unsurpassed Jet Varieties

Cal Spas the industry's most dynamic and thorough selection of spa jet faces — each of which have a specialized function that can help you create the best tub experience. Each jet option is positioned in a configuration that delivers effective hydrotherapy massage solutions to specific areas of the body. Users can rotate each jet to the On or Off position for a more personalized spa session every time the ease into the warm waters of their tub.

# Velocity Jets

## Velocity™ Jets

The epitome of style, Cal Spas Exclusive Stainless-Steel Velocity™ Jets are available in stylish black and blue stainless steel with our patented “Velocity” design and come standard on all Escape and Platinum hot tubs.

### Deep Tissue Jets

Pinpoint the deepest layers of pain like muscle tissue and tendons with our Deep Tissue Jets. This system is designed to release chronic muscle tension while increasing your circulation and reducing stress levels.

### Soft Tissue Jets

Soft Tissue jets work in concert with Cal Spas hydrotherapy technology to gently ease stiffness and reduce inflammation that results from the daily wear and tear of working, commuting, and exercise.

### Medium Tissue Jets

Relieve your neck stiffness, lower back tightness, and sore shoulders with Cal Spas Medium Tissue Jets that are engineered to give bathers a firm but delicate mix of air and water pressure.

# Stylish Entertainment

## Stylish Entertainment

Cal Spas intuitive operating controls let you alter the look and feel of your hot tub with easy-to-use touch button controls. Underwater LED lighting allows you to set the mood for your evening soak while Beam-lite™ LED Cabinet Lighting adds ambiance to your spa's exterior and surroundings.

### Premium LED Spa Lighting

Whether you're setting the tone for a romantic evening or entertaining family and friends, Cal Spas array of LED lighting options can help craft the perfect ambiance. LED lights are available across the perimeter of the spa as well as on valve jets and cup holders. Your LED lighting scheme can also be uniquely programmed to a singular color or to rotate across a variety of different shades.

### LED Waterfall

Cal Spas waterfall feature allows you to further recreate a peaceful, tropical environment in your home resort space with your choice of classic cascade or vertical fountain styles. Relax as the melody of the water drops landing atop the surface of your spa waters in concert with the delicate sounds of the jets. You can even enhance the look and feel of any waterfall with custom LED lighting options.

### BEAM-LITE™ LED Cabinet Corner Lighting

Add a unique accent and personalized look to your home resort space with Cal Spas Corner Cabinet Lighting. Powered with energy efficient LED lights, the BEAM-LITE™ is a cost-effective way personalize and beautify the look and feel of your hot tub.

### Freedom Sound Bluetooth

The Cal Spas Freedom Sound package comes complete with a Bluetooth-compatible high range speaker system with crystal-clear sound across 2", 4" or 6" weatherproof speakers. Choose our High-Power Subwoofer with Waterproof Marine-Grade Speakers for the ultimate audio experience while you relax or entertain. Connect your smart device for high fidelity playback across years of enjoyment.

# Cabinets & Spa Covers

## Cabinets and Spa Covers

Every Cal Spas hot tub is constructed with elegant and durable paneling to protect your investment and add lasting sophistication and style to your Home Resort. Friends and family won't only notice your tubs incredibly relaxing waters, but it's sharp looks as well.

### Cal Preferred™ Vertical Cabinet Panels

Each Cal Spas tub is enveloped in handsome paneling that's designed to provide maximum UV resistance for every spa. Choose from available colors Mahogany, Smoke, or Mist to bring the look you want for your custom spa or to match surrounding architecture.

### Cal Spas Elite™ Horizontal Cabinet Panels

Each Cal Spas tub is enveloped in handsome paneling that's designed to provide maximum UV resistance for every spa. Choose from available colors Coastal Grey or Mocha to bring the look you want for your custom spa or to match surrounding architecture.

\*Shown with Beam-Lite™ LED Cabinet Corner Lighting

### Cal-Armor™ Spa Covers

Your Cal Spas tub will always be as warm and inviting as the last time you left it thanks to our Cal-Armor 4" to 2" tapered hot tub cover. Constructed of ultra-durable polyester, our covers are specially designed to maximize heat retention and protect your hot tub from the elements. Exclusive child lock safety technology. Shown with optional accessory Pro-Lift Cover Lifter.

Cabinet Drain

# Cal Metro

## All surround components are available as individual pieces.

The Cal Metro Surrounds features a knock-down design that makes assembly easy and quick. Combine a sleek metal base with a top to match any Cal Spas hot tub that has Cal Preferred™ cabinet. The Cal Metro Surrounds conveniently feature independent movable components; which can be used to create hundreds of different hot tub décor options regardless of the size or shape of your spa!
